# Sustainability Report

---

2022

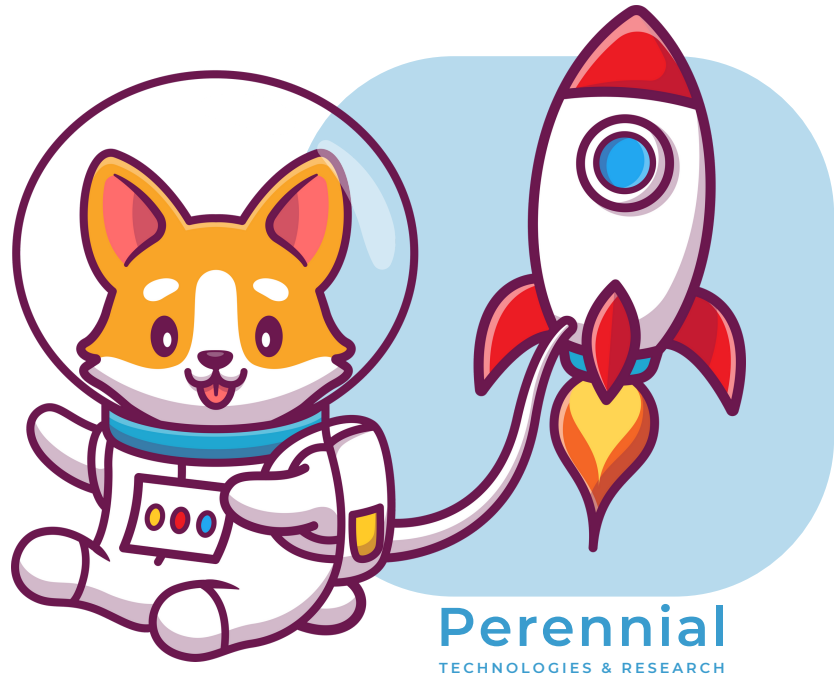

## Mr. Orange Advance Cleaning

---

As a responsible business, we recognize the importance of sustainability and the role we play in preserving the planet for future generations. This report details our sustainability initiatives, progress, and targets for the year 2022. Our focus continues to be recycling water and produced waste by atleast 15% per year.

PERENNIAL  
FORMULATONS

---

In 2022, we made significant progress towards our goals by implementing several initiatives that focused on recycling water and waste extremely efficiently. As a result, we were able to reduce our water usage and waste generation by 30% and 40%, respectively. Additionally, we decreased our energy consumption by 20% by implementing energy-efficient technologies and processes. We are proud of the progress we have made towards sustainability and are committed to continuing to improve our environmental performance in the future.

**Below is a breakdown of 2022 Reductions**
